

# Girl's Business

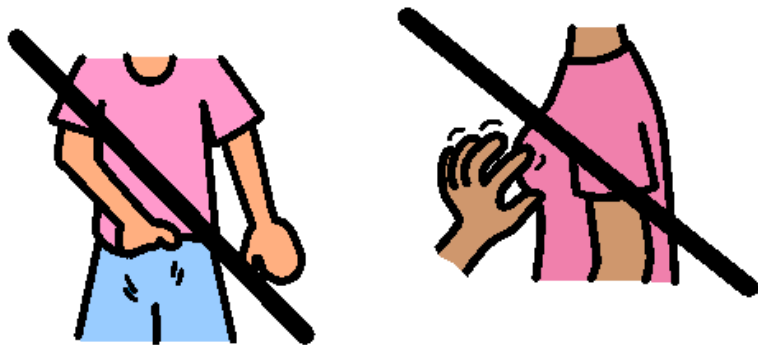

We can touch different parts of our bodies

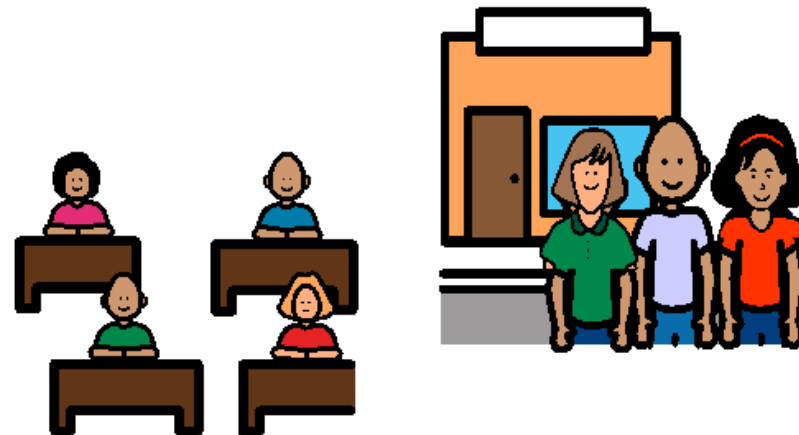

But there are some body parts we don't touch in front of other people. These are our personal parts. Everybody has personal parts.

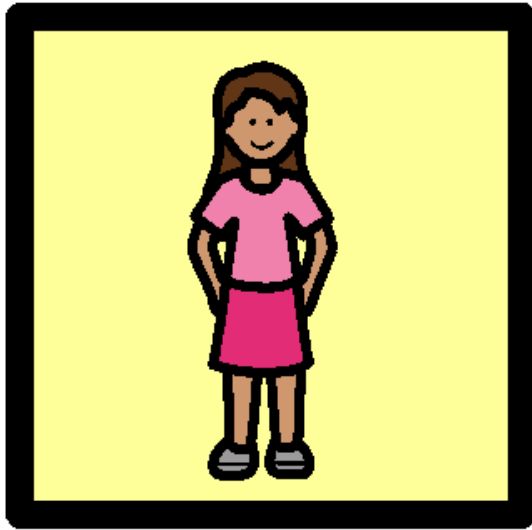

You shouldn't touch your personal parts in public.  
You don't put your hands in your pants in public.

In public means you are with other people  
In school, at shops and at restaurants are in public.

Private

At home, alone in your bedroom or bathroom is in private.  
You could talk to you Mum and Dad about where is private in your house.
