

Touching

It's nice to be around other people

Its great fun to talk to our friends

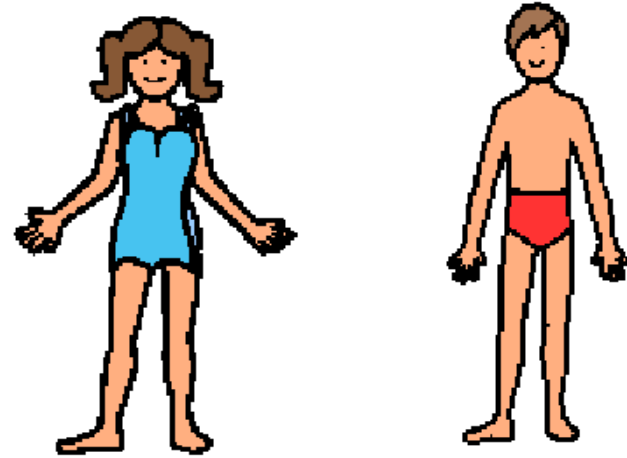

Sometimes people touch each other.
We touch when we hug and shake
hands to say hello.

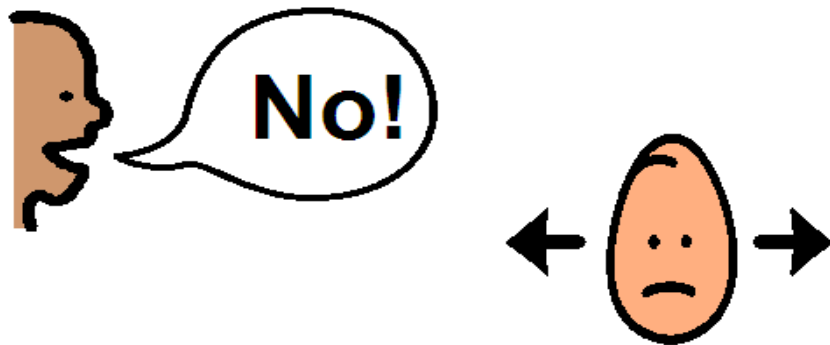

Sometimes we touch each other
when we need help.

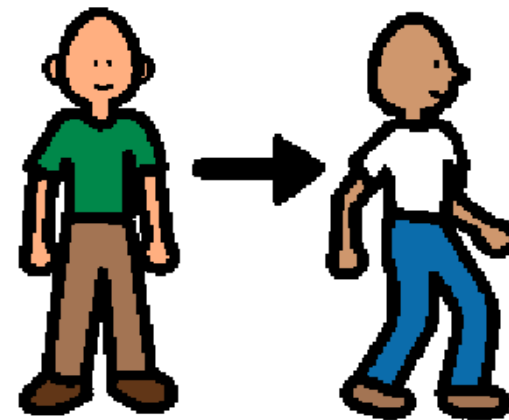

It's not ok for anyone to touch me in private places if I don't want them to.

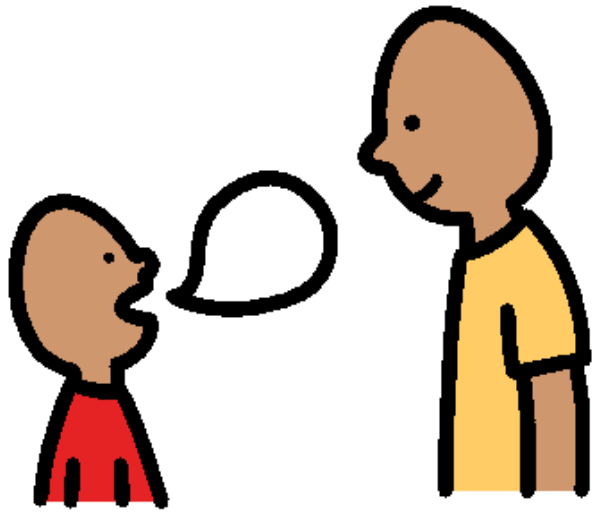

Private places are any part of my body that is covered by bathers when I go swimming

If somebody touches me and I don't like it and I don't want them to I should say or sign 'NO'

I should move away from that person

I should tell my mum or dad or a teacher straight away.
